YEMEN AMATEUR RADIO ---> The following was received a few days ago from Vladimir Bykov, UA4WHX:

Hello everybody!

Having spent 10 days in Yemen and met a number of people responsible for issuing licences and spectrum management of Yemen Telecom as well as two deputy ministers of the Ministry of Tecomunications and Information Technology, I can probably say this:

1. Not a single amateur radio license has been ever issued in yemen in the past 20 years, for those interested in the authenticity of the fact I can prorably provide a written statement of the Ministry confirming the fact.
2. Amateur radio has never been legalized in Yemen. Period. No legal base, no exceptions so far. But the Ministry is sincerely interested in promoting the hobby. They know about it and do plan to pass the laws for it as soon as possible.
3. When King Hussein of Jordan was here he requested a license which he did not get....
4. The Ministy has tried to authorize amateur radio activity in Yemen a few times but the attemps always got stuck at the Ministry of Intrerior offices being higher or lower.

5. What may help: write letters (when you have time) to both of those ministries, explaining

A. why it is good

B. why it is no danger to security

C. send a bit of printed material.

Then it won't be too long before Yemen goes down to 10 least wanted.

73,

Vladimir M. Bykov

UA4WHX etc
